1. Laserneedles in acupuncture	1
1.1 Introduction and motivation	1
1.2 Dose-effect relationships in acupuncture	4
1.3 Laserneedle acupuncture as a placebo method.....	7
1.4 Physical characteristics of laserneedles.....	11
1.5 Acknowledgements	16
1.6 References	16
2. Cerebral vascular effects of noninvasive laserneedles measured by transorbital and transtemporal Doppler sonography.....	18
2.1 Introduction	18
2.2 Methods.....	20
2.2.1 Non-invasive laserneedles	20
2.2.2 Multidirectional transorbital and transtemporal Doppler sonography	22
2.2.3 Participants	23
2.2.4 Acupuncture and procedure.....	23
2.2.5 Statistical analysis	25
2.3 Results	25
2.4 Discussion	27
2.5 Conclusion.....	28
2.6 Acknowledgements	29
2.7 References	29
3. Near-infrared spectroscopy for objectifying cerebral effects of needle and laserneedle acupuncture	32
3.1 Introduction	32
3.2 Methods.....	32
3.2.1 Near-infrared spectroscopy.....	32
3.2.2 Laserneedle stimulation.....	33
3.2.3 Healthy volunteers, acupuncture, measurement procedure.....	34
3.2.4 Statistical analysis	36
3.3 Results	36
3.4 Discussion	38
3.5 Acknowledgements	41
3.6 References	41
4. Communication between acupoint and brain proved by ultrasound	43
4.1 Introduction	43
4.2 Methods and materials.....	43

4.2.1	TCD monitoring of the anterior and posterior cerebral arteries with a new probe holder	43
4.2.2	Participants	44
4.2.3	Laserneedle acupuncture	45
4.2.4	Statistical analysis	48
4.3	Results	48
4.4	Discussion	53
4.5	Acknowledgements	55
4.6	References	55
5.	Histological investigations regarding micromorphological effects of laserneedle illumination. Results of an animal experiment.....	57
5.1	Introduction	57
5.2	Methods.....	57
5.2.1	Procedure.....	57
5.2.2	Laserneedle stimulation.....	59
5.2.3	Laser Doppler flowmetry and temperature measurement.....	59
5.3	Results	60
5.4	Discussion	61
5.5	Acknowledgements	62
5.6	References	62
6.	Effects of laserneedle stimulation on microcirculation and skin temperature.....	64
6.1	Introduction	64
6.2	Method and volunteers	64
6.2.1	Laser Doppler flowmetry	64
6.2.2	Volunteers and procedure.....	65
6.2.3	Statistical analysis	67
6.3	Results	67
6.4	Discussion	70
6.5	References	72
7.	Effects of acupressure, manual acupuncture and laserneedle acupuncture on EEG bispectral index (BIS) and spectral edge frequency (SEF) in healthy volunteers	73
7.1	Introduction	73
7.2	Material and methods	73
7.2.1	Subjects	73
7.2.2	Procedure and study design	74
7.2.3	Evaluation parameters	76
7.2.4	Statistical analysis	77

7.3	Results	77
7.4	Discussion	81
7.5	Acknowledgements	85
7.6	References	85
8.	Acupuncture using laserneedles modulates brain function: first evidence from functional transcranial Doppler sonography (fTCD) and functional magnetic resonance imaging (fMRI)	87
8.1	Introduction	87
8.2	Methods.....	88
8.2.1	Painless laserneedles	88
8.2.2	Functional multidirectional transcranial Doppler sonography (fTCD)	88
8.2.3	Functional magnetic resonance imaging (fMRI)	89
8.2.4	Participants	89
8.2.5	Experimental design and procedure	89
8.2.6	Evaluated parameters.....	91
8.2.7	Statistical analysis	92
8.3	Results	92
8.4	Discussion	96
8.5	Conclusions	98
8.6	Acknowledgements	98
8.7	References	98
9.	Quantification of gender specific thermal sensory and pain thresholds before and after laserneedle stimulation	101
9.1	Introduction	101
9.2	Method	101
9.2.1	Volunteers.....	101
9.2.2	Measurement of thermal sensitivity and thermal pain thresholds.....	102
9.2.3	Laserneedle acupuncture and procedure.....	103
9.2.4	Statistical analysis	105
9.3	Results	105
9.4	Discussion	109
9.5	Acknowledgements	110
9.6	References	110
10.	Biological effects of painless laserneedle acupuncture - a short summary of important scientific results	112
10.1	Introduction	112
10.2	Methods.....	112
10.2.1	Temperature and microcirculatory monitoring	112

10.2.2	Functional multidirectional transcranial Doppler-sonography (fTCD)	113
10.2.3	Functional magnetic resonance imaging (fMRI)	113
10.2.4	Near infrared spectroscopy (NIRS)	113
10.2.5	Laserneedle stimulation	113
10.2.6	Healthy volunteers, animal experiment and procedures	114
10.2.7	Statistical analysis	114
10.2.8	Evaluation parameters	115
10.3	Results	115
10.4	Discussion	121
10.5	Conclusion	122
10.6	Acknowledgements	122
10.7	References	122
11.	Increases in intracranial pressure and changes in blood flow velocity due to acupressure, needle and laserneedle acupuncture?	124
11.1	Introduction	124
11.2	Material and methods	124
11.2.1	Volunteers, patient, acupressure and procedure	124
11.2.2	Measurement techniques, evaluation parameters and statistical analysis	126
11.3	Results	127
11.4	Discussion	131
11.5	Acknowledgements	133
11.6	References	133
12.	Laserneedle acupuncture - clinical studies	135
12.1	Introduction	135
12.2	Material, patients and methods	136
12.3	Results	139
12.3.1	Lumbar, thoracic and cervical spine syndromes as well as post cervical and lumbar intervertebral disk prolapse	139
12.3.2	Gonarthrosis, coxarthrosis, rhizarthrosis, peri arthritis in the shoulder, epicondylitis, tendinitis, Morbus Bechterew and fibromyalgia-syndrome	140
12.3.3	Remaining paresis after stroke	141
12.3.4	Cephalgia, migraine and trigeminal neuralgia	142
12.3.5	Arterial obstruction disease	143
12.3.6	Gastropathy and bronchial asthma	143
12.3.7	Depression, anxiety, panic attacks, psychovegetative exhaustion	143

12.4	Discussion	144
12.5	References	145
13.	Pain therapy with laserneedle acupuncture	147
13.1	Introduction	147
13.2	Case reports	147
13.3	Argumentation.....	148
13.4	Discussion	150
13.5	References	151
14.	Pain therapy of osteoarthrosis / osteoarthritis-patients using the laserneedle system in a medical practice with emphasis on rheumatology and pain therapy	152
14.1	Introduction	152
14.2	Patients and method.....	152
14.3	Results	154
14.4	Discussion	154
14.5	References	155
15.	Laserneedles in gynecology.....	156
15.1	Introduction	156
15.2	Material, test persons, technique	157
15.3	Case studies	158
15.3.1	Induction of labor with laserneedles.....	158
15.3.2	Carpal tunnel syndrome.....	160
15.3.3	Urogenital symptoms, back pain, hot flushes.....	161
15.3.4	Breast cancer with mastectomy, transmission in scars	162
15.3.5	Dysmenorrhoea, lack of energy	164
15.3.6	Childlessness, temperature curve, cycle regulation.....	165
15.4	Results and discussion.....	166
15.5	References	168
16.	Laserneedles in gynecology - a study with questionnaires.....	169
16.1	Introduction	169
16.2	Test persons.....	169
16.3	Method	170
16.4	Results	171
16.5	Discussion	177
16.6	References	178
17.	Laserneedle therapy in dentistry.....	179
17.1	Introduction	179
17.2	Methods and materials.....	179
17.3	Results	179

17.3.1	Oral surgery	179
17.3.2	Endodontology	180
17.3.3	Crown - bridges	181
17.3.4	Pain therapy	181
17.3.5	Myoarthropathy	181
17.3.6	Neuralgia	182
17.3.7	Sedation in case of dental phobias.....	182
17.3.8	Nausea during molding.....	182
17.4	Discussion	183
17.5	References	183
18.	Laserneedle stimulation as a potential additive method for post operative pain treatment.....	185
18.1	Introduction	185
18.2	Method	185
18.2.1	Patients and procedure.....	185
18.2.2	Laserneedle acupuncture	186
18.2.3	Statistical analysis	187
18.3	Results	187
18.4	Discussion	188
18.5	Acknowledgements	189
18.6	References	189
19.	Effects of laserneedle stimulation in the external auditory meatus on very early auditory evoked potentials	190
19.1	Introduction	190
19.2	Methods.....	190
19.2.1	Laserneedle stimulation in the external auditory meatus	190
19.2.2	Auditory evoked potentials of early latency.....	191
19.2.3	Volunteers and procedure.....	192
19.2.4	Statistical analysis	193
19.3	Results	193
19.4	Discussion	195
19.5	Acknowledgements	198
